CAPRI Training Session 2015

14–17 September 2015, ETSIA-UPM (Madrid, Spain)

Aims of the Training Session

The current Training Session is organized under the umbrella of the TRUSTEE project - http://www.trustee-project.eu and aims at:

- Learning to analyse how changes in agricultural policies affect agrifood markets, farming decisions and the environment.
- Improving knowledge about agricultural economics and quantitative modelling of agriculture.
- Learning how to work with result sets from the CAPRI model and its Graphical User Interface (GUI).
- Discussing issues of common interest for CAPRI contributors and users (i.e. model development and maintenance).

Organisation of the Training Session

The Training Session will start on Monday 14th afternoon with a pre-session for CAPRI beginners, focusing on the basic structure of CAPRI, an introduction to the Graphical User Interface (GUI) and the CAPRI installation on laptops. From Tuesday 15th to Thursday 17th September, the sessions will concentrate on using existing result sets from scenario analysis based on CAPRI. Participants will work in small groups (3-6) supervised by a trainer.

Laptop needed

Participants should whenever possible bring along a Laptop with about 1.5 Gigabyte of free space and should have access to an administrator account if TortoiseSVN as well as an updated Java Run Time Engine (32bit or 64bit) are not yet installed.

Costs

There is no fee for the training itself. Participants have to cover travel, accommodation and meals.

Trainers

Peter Witzke, Alexander Gocht, Maria Blanco, Torbjörn Jansson, Mihaly Himics, Ignacio Pérez, Franz Weiss, Adrian Leip, Marcel Adenauer
